

macintosh powerbook

the first of apples laptops to feature a trackpad, this is one of the ancient ancestors of your modern macbook.

here we present a set of HYPERCARD stacks for your entertainment - lest we forget what the web could have been, if the internet had arrived just a few years earlier on macintosh ..

demo

explore the hypercard stacks we have left for you on the desktop.

exhibit period

this system will be on display from April - May 2019
